1 Statement of accounting policies

Reporting entity

The Electricity and Gas Complaints Commissioner Scheme (the Scheme) is an unincorporated association.

The financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (NZ GAAP).

Measurement base

Unless otherwise stated the accouting principles recognised as appropriate for the measurement and reporting of earnings and financial position on an historical cost basis have been followed.

Specific accounting policies

The following specific accounting policies which materially affect the measurement of financial performance and financial position have been applied:

Revenue recognition: levy income is recognised in the levy year to which it relates, even where levies are calculated by reference to cases in a different period (the reference period).

Levies receivable: levies receivable are stated at their estimated realisable value. A levies in dispute provision is made to reflect levies which are in dispute at balance date but are considered collectable by the Board. Debts considered uncollectable are written off.

Fixed assets: fixed assets are stated at cost less accumulated depreciation. Depreciation has been calculated using the maximum rates permitted by the Income Tax Act 2007. The principal rates in use are:

Office Equipment	9% - 80.4%	DV or SL
Leasehold improvements	10% - 33%	DV or SL
Computer Equipment	33% - 60%	DV or SL
Computer database	33% - 48%	DV or SL

An impairment loss is recognised to the extent that the recoverable amount of an asset is less than its carrying amount.

Taxation: the Scheme is an unincorporated association for income tax purposes.

Goods and services tax: the financial statements have been prepared on a GST exclusive basis except for accounts receivable and accounts payable which are stated inclusive of GST.

Differential reporting: the Scheme is a qualifying entity for Differential Reporting because it is not publicly accountable and is not large as defined in the Framework of Differential Reporting by the New Zealand Institute of Chartered Accountants. The Scheme has taken advantage of all differential reporting exemptions except that the financial statements have been prepared on a GST exclusive basis.

There have been no changes in the accounting policies which have been applied on bases consistent with those used in previous years.

Prior to the year ended 31 March 2011 the Scheme had not recognised an income tax liability on interest income and under an agreement with the IRD had not submitted income tax returns.

Following an internal review of the Scheme's taxation status it appeared that the Scheme is in fact liable to tax on such income. A voluntary disclosure was made to IRD on 12 April 2011 in respect of interest for the years ended 31 March 2003 to 31 March 2010 inclusive. Agreement was reached with IRD in June 2011.

The financial statements for the year ended 31 March 2011 were finalised before the agreement with IRD was reached. They therefore included a provision for income tax on an estimated basis. Following agreement of the position with IRD the financial statements for the year ended 31 March 2012 reflect a reduction in the provision made in the previous year. Income tax for the current year has been provided based on the agreement with IRD.

6 Subsequent events

There were no events after balance date that require adjustment of or disclosure in the financial statements.

7 Capital commitments

Capital commitments at balance date amounted to \$5,650 (2011: \$0)
